**A Chapter of the
American College of Clinical Pharmacy**

A Primer and Update in Nephrology, Cardiology and Statistics ***An ACPE-accredited continuing education symposium for clinical pharmacists***

Goal:

To update clinical pharmacists on new guidelines and drugs in the management of nephrology and cardiology patients and to provide clinical pharmacists with a review of statistics

Objectives:

Upon attending the session, participants should be able to:

1. Discuss recent literature pertaining to dosing in renal disease as well as treatment of blood pressure and use of ESA therapy in chronic kidney disease.
2. Describe new therapies and guidelines for the treatment of various cardiovascular diseases.
3. Discuss statistical tests commonly used for data analysis.

Time and Location:

Date: September 11, 2010, 8:30 am – 12:30 pm

Locations: Multiple (see below). Participants may attend the program at any of the 3 locations listed below.

Lectures will be broadcast live to all 3 sites.
